

# Brain imaging study for Obsessive Compulsive Disorder

## About the study

Researchers at the Centre for Addiction and Mental Health (CAMH) are conducting a study that will investigate the brain activity of people who have been diagnosed with obsessive compulsive disorder.

## You may be eligible to participate in this research study if you are:

- between the ages of 18-50,
- have a current diagnosis of Obsessive Compulsive Disorder,
- right-handed ,
- willing to undergo a non-invasive brain scan that records brain activity

Participants will receive compensation for their time spent in the study.
